SUMMARY

Aspiring AI Engineer with hands-on experience in building LLM-powered applications using LangChain. Skilled in developing RAG systems, AI agents, and real-time AI solutions using Python. Familiar with cloud platforms including AWS. Strong foundation in software development with a focus on building practical AI-driven applications.

SKILLS & PROFICIENCIES

- **Programming :** Python(Django,FastAPI), Java(SprintBoot),C,JavaScript,React
 - **AI / Agentic AI :** ML, RAG, LangChain,LangGraph, Vector DB, AI Tools,Crew AI
 - **Database :** MySQL, MongoDB, SQL
 - **Cloud Computing :** Amazon Web Services (SAA),GCP
 - **Tools &Technologies:** Power BI, Git & Github, REST API, Excel & Sheets, Web Scraping
 - **Softskills:** Problem-Solving, Adaptability, Creativity, Critical Thinking, Collaboration & Teamwork
-

WORK EXPERIENCE

Software Developer Intern, Lemonade Software Developers

Dec 2023 - Jul 2024

- Contributed significantly to the development of WorkWatch, an office automation tool used by 20+ users, built using C# and MS SQL.
- Involved in the full development cycle including database design and feature implementation.

Python Developer Intern

Ganitwala | Dec 2025 - May 2026 | <https://ganitwala.com>

- Designed a full-stack web-based math platform using Django and MySQL, accessible to users online.
 - Implemented role-based access control with Admin and Student roles, ensuring secure user management.
-

PROJECTS

EduQuery

- Built a RAG-based system for intelligent question-answering from user-uploaded documents using LLMs.
- Designed an end-to-end pipeline with document chunking, vector DB storage, and API-based retrieval for scalable responses.

SQL Agent

- Built a RAG-based SQL agent to convert natural language queries into SQL and retrieve data from databases.
- Implemented LLM-driven query generation with context-aware retrieval for accurate and efficient data responses.

AGCareerSathi

- Built a full-stack AI-driven career recommendation system using Gemini LLM for personalized guidance, used by 10+ schools and colleges.
- Integrated secure authentication and payment gateway for seamless access to reports.

KEY ACHIEVEMENTS

- Awarded Best Intern at Lemonade Software Developers for outstanding performance.
- Won 6+ prizes in coding and web design competitions at national & district level.
- Organized 2 inter-college competitions as part of the organizing team, demonstrating leadership and teamwork.

LANGUAGES

English, Hindi, Marathi, Kannada, Telugu

EDUCATION

Bachelor of Computer Applications | Percentage : 83.51% | CGPA : 9.5 / 10
Punyashlok Ahilyadevi Holkar Solapur University, Solapur

CERTIFICATIONS

1. Agentic AI - Skill Up	- NationSkillUp	2026
2. AWS Solution Architect Associate	- AWS SkillBuilder	2026
3. Softskills -Complete Professional Developement Training	- GeeksforGeeks	2025
